Building & Safety Division		
AERIAL FIREWORKS DISPLAYS	Page 1 of 1	Revised: May 15, 2013
Category: Fire Prevention	Code References: 2006 IFC 3308, NFPA 1123, NFPA 1126	

PURPOSE

The purpose of this policy is to provide the highest level of public and fire safety.

PROCEDURE

- 1. Permits are required in the City of Goodyear for the Outdoor Display of Fireworks. A completed application and permit fees shall be submitted to the Building Safety Division prior to the display. The information listed in Annex B.1, National Fire Protection Agency (NFPA) 1123 shall be included with the completed application. In addition, a letter of no objection from the Federal Aviation Administration (FAA) approving the date, time and location may be required to be submitted with the application. Required compliance and approval with FAA is the responsibility of the fireworks company owner, operator and/or shooter.
- 2. The display of Fireworks, including proximate audience displays and pyrotechnic special effects in motion picture, television, theatrical, and group entertainment productions, shall comply with this chapter 3308 of the 2006 International Fire Code (IFC) and NFPA 1123 or NFPA 1126.
- 3. Single-break aerial salute shells shall be limited to a maximum size of 5 inches in diameter and length, per section 4.1.7.1 of NFPA 1123.
- 4. Firing Methods shall be regulated per section 8.2.9.2 of NFPA 1123.
